## Performance Summary

The Government School Performance Summary provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian Government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes.

Members of the community can contact the school for an accessible version of these data tables if required.

# How to read the Annual Report

## What does the *About Our School* section refer to?

The About Our School page provides a brief background on the school, an outline of the school's performance over the year and plans for the future.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

## What does the *Performance Summary* section of this report refer to?

The Performance Summary reports on data in three key areas:

### Achievement

- student achievements in:
  - English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
  - English and Mathematics for teacher judgements against the curriculum
  - all subjects for Victorian Certificate of Education (VCE) examinations (secondary schools)

### Engagement

- student attendance and engagement at school
- how many students leaving school go on to further studies or full-time work (secondary, P-12 and specialist schools)

### Wellbeing

- Attitudes to School Survey (ATOSS)
  - Sense of connectedness
  - Management of Bullying

Results are displayed for the latest year, as well as the average of the last four years (where available).

## What does *School Comparison* refer to?

The School Comparison is a way of comparing this school's performance to similar schools in Victoria.

The comparison measure takes into account the school's academic intake, the socio-economic background of students, the number of Aboriginal students, the number of non-English speaking and refugee students, the number of students with a disability and the size and location of the school.

The School Comparison shows that most schools are achieving results that are '**Similar**' to other schools with alike student backgrounds and characteristics. Some schools are doing exceptionally well and have '**Higher**' performance. Some schools have '**Lower**' performance than expected and receive targeted support to ensure that there is improvement.

More information on School Comparison performance measures can be found at: <http://www.education.vic.gov.au/school/parents/involve/Pages/performance.aspx>

## What does '*Data not available*' mean?

Some schools have too few students enrolled to provide data. There may be no students enrolled in some year levels so school comparisons are not possible.

New schools have only the latest year of data and no comparative data from previous years.

The Department also recognises unique circumstances in Specialist, Select Entry, English Language and Community Schools where school-to-school comparisons are not appropriate.

## What is the *Victorian Curriculum*?

The Victorian Curriculum F-10 sets out what every student should learn during their first 11 years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs.

'Levels A to D' are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').
